SYDNEY, Australia [CHI] — Last week, the Organisation of Rabbis of Australasia (O.R.A.) gathered in Sydney's Yeshiva Centre at their biannual Rabbinic conference for two intense days of discussions in contemporary Halachic issues ranging from Trauma counseling to abortion and organ donation.

Over seventy Rabbis from the majority of Orthodox congregations in Australia and New Zealand were in attendance.

Rabbi Mordechai Gutnick of Melbourne Victoria, Immediate Past President of O.R.A., noted that, "with the recent passing of Rabbi Yitzchok Dovid Groner, the longest serving Rabbi in Australasia is currently Rabbi Pinchus Feldman OAM, Dean & Spiritual Leader of Sydney's Yeshiva Centre and Head of Chabad in NSW."

Rabbi Dovid Freilech of Perth, Western Australia and the newly elected President of O.R.A. proposed the following resolution which was passed unanimously:

"This conference resolves that Rabbi Pinchus Feldman, dean and spiritual leader of the Yeshiva Centre, Sydney, be conferred the title "Patron of ORA" in recognition of his forty years of devoted and dedicated

If you were in the room at the time you would have seen me go over to Rabbi Freilich to initiate a resolution. That was for a completely different resolution, encouraging Jews to go to Dinei Torah in the instance of disputes.

After a little bit of discussion with Rabbi Freilich and Rabbi Moshe Gutnick we decided not to go ahead with that resolution because a similar resolution was already made at the last conference, so there was no chidush in it.

A few minutes later Rabbi Freilich put forward the resolution honouring my father, which I was completely surprised about, albeit pleased.

I had nothing to do with that resolution whatsoever

If you call Rabbi Freilich on 0418 946 907 he will confirm to you that he conceived of, wrote and tabled that resolution.

Rabbi Freilich is not a Lubavitcher and had his differences with my father over the years but what he does have is a basic derech erez and hakoras hatov for the enormous contribution that my father has made to Australian Jewry.

I can try and figure out who you are, but i am certain that you are a lubavitcher, not allied with the feldmans, which narrows it down to very, very few people in the room. I am quite certain that you are not Rabbi Braun because he does have a derech erez for my father. so i think i know who you are and if i am correct you actually were a talmid in sydney yeshiva for a little while a number of years ago!!!

what an unbelievable display of kofuy tov and lack of basic derech erez... u must be simply jealous that you weren't voted patron of ora....i would have expected better from you bichlal, particularly during the three weeks....!!!!

Sincerely,

Rabbi Eli Feldman

To Melbourne "Rov"

I guess 2000 years of golus isn't enough for you to hold yourself in from spreading sinas chinom and things that inflict pirud halevovos. The fact is that the Rebbe chose Rabbi Pinchas Feldman sheYichye as his shliach to Sydney and B"H with his leadership Yiddishkeit in Sydney was rebuilt from scratch. How does the recognition of his 40 years of fruitful labor on the Rebbe's Shlichus bother you? I think all of us have to work on implanting a baseless love for every Yid, especially in these dark days of golus. May this Ahavas Chinom bring about the Geulah Now!!

P.S. The Cheder in Yeshiva Centre is the only mosad chinuch for young children in australia that offers Chinuch strictly al Taharas HaKoidesh.

To Robby,

The Rabbi who chaired that discussion was Rabbi Moshe Gutnick SHLITA from Sydney.

For more information you can email him at rabbig@ka.org.au

Also, my father, Rabbi Pinchus Feldman SHLITA, said a story that a number of years ago a family called him with a Shaaloh wether to take their mother off a life support machine because she was braindead (according to the doctors) and my father didn't allow it. The next morning the woman woke up and lived another 10 years in good health & of sound mind!

A Brain Dead Patient Cannot 'Wake Up'

To Rabbi Feldman,

Thank you very much for Rabbi Gutnick's email.

Concerning the story of the woman who woke up from Brain Death: Either your recollection of the story, or your father's recollection, or the doctors diagnosis mistakenly mischaracterized the facts of the case.

The facts are a brain dead (sometimes referred to as brain-stem dead) patient (who was properly diagnosed) cannot wake up.

All such stories are told as anecdotes or reported in magazine or TVs looking for headlines.

If anyone ever did 'wake up' from brain death after being properly diagnosed as brain dead than the doctor would have submitted the case to a medical journal. He would have ran to publish such a story in a medical journal.

This doctor would make major medical history by providing the documentation of the testing done to prove brain death and then having the person wake up. This has never been done because its impossible.

Ask any neurosurgeon (frum or not). Awakening from Brain Death is not possible.

If you would like to learn more medical or halachic facts about brain death please go to <http://www.hods.org>

Keep fighting the good fight, you and 'the mob' are doing a fran good job and when Moshiach does finally rock up, it will be more than just the ORA who will thank and honor Rabbi Feldman for the thousands of hours and years of devotion to spreading the warmth and joy of Yiddishkeit throughout Sydney...

Whoever Melbourne Rov is I dont know but what I do know is that R feldman has been the ead f the Yeshiva centre for the past 40 years.

We can be makir for the tov that he did however every coin has its flip side Rabbi Feldman has also been party to machlokes that has led to the split of the community, whoever is to blame

imyh with moshciach the community can get back together again.

only when there is derech erez and to that i must say many members within both sides do not possess, yes! you Rabbi Eli are included as well
